-  Žilina, Slovak Republic

Date of birth: 12. 8. 2003

WORK EXPERIENCE

Backend developer OCT 2024 - Currently
Blueghost.cz - Prague, Czech Republic
For the past year I've been working with Blueghost as a backend developer. I've worked in a bigger team working on many,many different projects. From eshops to CRM systems to different tools and sites. I've even worked with no-code, low-code tools such as Bubble.io and Tabidoo.

- Tech stack: Symfony, SlimPHP, PHPUnit, Git, Bitbucket, Docker, Redis, ElasticSearch, Twig, MariaDB
- E-shops, ERP, CRM, CMS, APIs, no-code tools

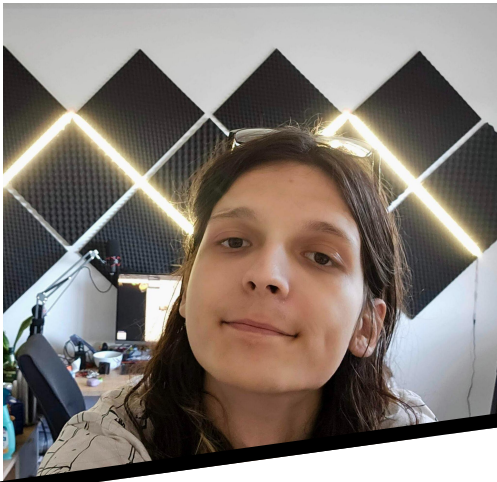

Medior PHP Developer NOV 2024 - JUNE 2025
Startitup s.r.o. - Bratislava, Slovak Republic
At StartitUp I was assigned as a code owner for the subscription platform. I've worked on customizing and extending REMP, an open-source subscription CRM system by Denník N. This was my first experience with Nette and extending open-source projects.

- Tech stack: Nette, Latte, Git, Gitlab, Docker, Server administration
- APIs, Server administration, Deployment, CI/CD, UI/UX, Modules, DevOps

PHP Developer JULY 2022 - OCT 2024
GRÜN Software Group - Aachen, Germany
At GRÜN Software Group I had the task to modernize the development environment. I've moved the codebase to git, deployed CI/CD pipelines and I've deployed custom internal apps. Among many things I've worked on is a custom Sentry-like error aggregation tool with local AI stack. I've also made a code review tool and a better way to keep consistency between business logic of .NET and PHP apps.

Junior PHP Developer MAY 2022 - MAY 2022
Holokolo - Bratislava, Slovak Republic
During a transitional period I was working as a developer at Holokolo. I've been mainly assigned to a development of a full-site test suite. I've used Selenium and PHPUnit for both end-user testing and unit testing. Stress testing was also a part of the suite and all of this was implemented with automated CI/CD pipelines / Jenkins.

Junior PHP Developer OCT 2021 - MAY 2022
Dedoles, s. r. o. - Bratislava, Slovak Republic
Dedoles was my first ever job. I came in having never written a single line of PHP and came out as a capable junior. Being introduced to PHP through a big codebase in Laravel, and collaborating with Ui42 was a godsend. I still carry and

ABOUT ME

Hey, I'm Dávid. I'm a 22 year old developer currently living in Žilina, Slovakia. Professionally I've focused on backend development, but I'm interested in fronted technologies as well. I've started working with PHP in 2021 and instantly fell in love with Laravel. I've had the honor to meet Taylor Otwell and engage with the Laravel community. That said, I'm not scared of a challenge in the form of a different framework.

SKILLS

Laravel (PHP framework) - Expert	
PHP - Expert	
Symfony (PHP framework) - Advanced	
Nette - Basic	
HMTL - Expert	
CSS - Advanced	
TailwindCSS - Expert	
MySQL - Expert	
Redis - Advanced	
ElasticSearch - Skillful	
JavaScript - Advanced	
Vue.js - Skillful	
Livewire - Expert	
Rest API - Expert	
Rust - Beginner	
React - Basic	

use a lot of knowledge from this experience.

EDUCATION

Leaf Academy
Podnikavé líderstvo
Bratislava, Slovak Republic
2018 - 2021

Angular - Beginner

LANGUAGES

English - Proficiency (C2)

INTERESTS OR HOBBIES

In my free time I do a lot of things ranging from scripting rockets in Kerbal Space Program to building my own ergonomic keyboard PCB and all.
